

SAFETY DATA SHEET

Re:claim Washing Detergent Travel Pack

The safety data sheet is in accordance with Commission Regulation (EU) 2015/830 of 28 May 2015 amending Regulation (EC) No 1907/2006 of the European Parliament and of the Council on the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH)

SECTION 1: Identification of the substance/mixture and of the company/undertaking

Date issued 05.01.2017

1.1. Product identifier

Product name Re:claim Washing Detergent Travel Pack

Synonyms RECLAIM WASHING DETERGENT FOR SPORTS CLOTHES

1.2. Relevant identified uses of the substance or mixture and uses advised against

Use of the substance/preparation Laundry
Detergent for sportswear with fragrance

1.3. Details of the supplier of the safety data sheet

Manufacturer

Company name XTRCT Vision AB

Postal address Bolshedens Industriväg 35

Postcode SE-427 50

City Billdal

Country Sweden

Tel +46 736 873781

E-mail Martin.Liljegren@rlvnt.se

1.4. Emergency telephone number

Emergency telephone For poisoning emergencies, call NHS:111

SECTION 2: Hazards identification

2.1. Classification of substance or mixture

CLP Classification, Comments Classification according to (EC) No.1272/2008: Not classified as dangerous regarding health hazards, physical hazards and environmental hazards.

2.2. Label elements

Other Label Information (CLP) NOT CLASSIFIED according to health-, fire- and environmental hazard.
Voluntary labeling:
Keep out of reach of children.

2.3. Other hazards

PBT / vPvB The chemical contains no PBT or vPvB substances.

Other hazards In case of spills, beware of slippery floors and surfaces.

SECTION 3: Composition/information on ingredients

3.2. Mixtures

Substance	Identification	Classification	Contents
Potassium Cocoate	CAS no.: 61789-30-8 EC no.: 263-049-9	Skin Irrit. 2;H315; Eye Irrit. 2;H319;	< 5 %

Substance comments See section 16 for explanation of hazard statements (H) listed above.

SECTION 4: First aid measures

4.1. Description of first aid measures

Inhalation	Fresh air. Contact physician if symptoms persist.
Skin contact	Rinse the skin immediately with lots of water. Remove contaminated clothing. Get medical attention if any discomfort continues.
Eye contact	Immediately rinse with water for several minutes. Hold eyelids apart. Remove any contact lenses. Get medical attention if any discomfort continues.
Ingestion	Rinse mouth thoroughly. Drink a few glasses of water or milk. Do NOT induce vomiting. Get medical attention if any discomfort continues.

4.2. Most important symptoms and effects, both acute and delayed

Acute symptoms and effects	Eye contact: May cause temporary eye irritation.
----------------------------	--------------------------------------------------

4.3. Indication of any immediate medical attention and special treatment needed

Other Information	Treat symptomatically.
-------------------	------------------------

SECTION 5: Firefighting measures

5.1. Extinguishing media

Suitable extinguishing media	Dry-powder, carbon dioxide (CO ₂), water mist, foam. Use fire-extinguishing media appropriate for surrounding materials.
Improper extinguishing media	Do not use water jet.

5.2. Special hazards arising from the substance or mixture

Fire and explosion hazards	The product is not classified as flammable.
Hazardous combustion products	May include, but is not limited to: Carbon dioxide (CO ₂). Carbon monoxide (CO). Oxides of nitrogen (NO _x)

5.3. Advice for firefighters

Personal protective equipment	Use compressed air equipment when the chemical is involved in fire. In case of evacuation, an approved protection mask should be used. See also section 8.
Other Information	Containers close to fire should be removed immediately or cooled with water. Extinguishing water must not be discharged into drains. Extinguishing water must be disposed of in accordance with local regulations.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

Personal protection measures	Use protective equipment as referred to in section 8. In case of spills, beware of slippery floors and surfaces.
------------------------------	------------------------------------------------------------------------------------------------------------------

6.2. Environmental precautions

Environmental precautionary measures	Prevent discharge of larger quantity to drain.
--------------------------------------	------------------------------------------------

6.3. Methods and material for containment and cleaning up

Cleaning method	Remove spillage with inert absorbent materials. Flush contaminated area with plenty of water.
-----------------	-----------------------------------------------------------------------------------------------

6.4. Reference to other sections

Other instructions	See also sections 8 and 13.
--------------------	-----------------------------

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Handling	Provide adequate ventilation. Use protective equipment as referred to in section 8.
----------	-------------------------------------------------------------------------------------

Protective Safety Measures

Advice on general occupational hygiene Wash hands after contact with the chemical. Change contaminated clothing and take off protective equipment before the meal. Do not smoke, drink or eat in the workplace.

7.2. Conditions for safe storage, including any incompatibilities

Storage Store in a well-ventilated place. Keep container tightly closed. Store at room temperature.

7.3. Specific end use(s)

Specific use(s) See section 1.2.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Other Information about threshold limit values Contains no substances with occupational exposure limit values.
References (laws/regulations): EH40/2005 Workplace exposure limits, with later amendments.

8.2. Exposure controls

Limitation of exposure on workplace Provide adequate ventilation. The personal protective equipment must be CE-marked and the latest version of the standards shall be used. The protective equipment and the specified standards recommended below are only suggestions, and should be selected on advice from the supplier of such equipment.
A risk assessment of the work place/work activities (the actual risk) may lead to other control measures. The protection equipments suitability and durability will depend on application.

Respiratory protection

Respiratory protection Normally not required.

Hand protection

Hand protection For prolonged or repeated skin contact use suitable protective gloves. Glove thickness must be chosen in consultation with the glove supplier, who can inform about the breakthrough time for the glove. The gloves abilities may vary among the different glove manufacturers.

Reference to relevant standard BS-EN 420 (Protective gloves. General requirements and test methods).
BS-EN 374 (Protective gloves against chemicals and micro-organisms).

Suitable materials Nitrile. Neoprene. Butyl rubber.

Breakthrough time No specific information from the manufacturer.

Thickness of glove material No specific information from the manufacturer.

Eye / face protection

Eye protection Normally not necessary.

Additional eye protection measures Eye wash facilities should be at the work place.

Skin protection

Skin protection (except hands) Ordinary workwear.

Appropriate environmental exposure control

Environmental exposure controls Prevent spillage entering a watercourse or sewer, contaminating soil or vegetation.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state Clear liquid.

Colour Light green.

Odour Slight odour. Perfumed.

Comments, Odour limit Not specified by the manufacturer.

pH (as supplied) **Value:** 9-10

Melting point/melting range **Value:** 0 °C

Boiling point / boiling range	Value: > 100 °C
Comments, Flash point	Not specified by the manufacturer.
Comments, Evaporation rate	Not specified by the manufacturer.
Comments, Explosion limit	Not relevant.
Comments, Vapour pressure	Not specified by the manufacturer.
Comments, Vapour density	Not specified by the manufacturer.
Specific gravity	Value: 1000 kg/m ³
Solubility in water	Soluble.
Comments, Partition coefficient: n-octanol / water	Not specified by the manufacturer.
Comments, Spontaneous combustability	Not specified by the manufacturer.
Comments, Decomposition temperature	Not specified by the manufacturer.
Comments, Viscosity	Not specified by the manufacturer.
Explosive properties	Not classified as an explosive.
Oxidising properties	Not oxidising.

9.2. Other information

Other physical and chemical properties

Physical and chemical properties	Active content 30 %
----------------------------------	---------------------

SECTION 10: Stability and reactivity

10.1. Reactivity

Reactivity	No test data available.
------------	-------------------------

10.2. Chemical stability

Stability	Stable under normal temperature conditions and recommended use.
-----------	-----------------------------------------------------------------

10.3. Possibility of hazardous reactions

Possibility of hazardous reactions	No hazardous reactions known.
------------------------------------	-------------------------------

10.4. Conditions to avoid

Conditions to avoid	Extremes of temperatures.
---------------------	---------------------------

10.5. Incompatible materials

Materials to avoid	Not specified by the manufacturer.
--------------------	------------------------------------

10.6. Hazardous decomposition products

Hazardous decomposition products	None under normal conditions. See also section 5.2.
----------------------------------	-----------------------------------------------------

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Toxicological Information:

Other toxicological data	Non-ionic surfactants: LD50 oral, rat: > 5000 mg/kg (Analogous reasoning)
	Amphoteric surfactants: LD50 oral, rat: > 5000 mg/kg (Expert judgment)

Acute toxicity, Mixture estimate

Assessment of acute toxicity classification	Based on available data, the classification criteria are not met.
---------------------------------------------	-------------------------------------------------------------------

Potential acute effects

Inhalation	Not known.
Skin contact	Not known.

Eye contact	May cause temporary eye irritation.
Ingestion	No harmful effects expected in amounts likely to be ingested by accident.
Assessment corrosion / irritation classification	Based on available data, the classification criteria are not met.
Assessment aspiration hazard classification	Based on available data, the classification criteria are not met.
Assessment eye damage or irritation, classification	Based on available data, the classification criteria are not met.

Delayed effects / repeated exposure

Assessment respiratory sensitisation, classification	Based on available data, the classification criteria are not met.
Assessment skin sensitisation, classification	Based on available data, the classification criteria are not met.
STOT-single exposure	Based on available data, the classification criteria are not met.
STOT-repeated exposure	Based on available data, the classification criteria are not met.

Carcinogenic, Mutagenic or Reprotoxic

Assessment carcinogenicity classification	Based on available data, the classification criteria are not met.
Assessment Germ Cell Mutagenicity, Classification	Based on available data, the classification criteria are not met.
Assessment reproductive toxicity, Classification	Based on available data, the classification criteria are not met.

SECTION 12: Ecological information

12.1. Toxicity

Ecotoxicity	The chemical is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills may be potentially hazardous.
-------------	-------------------------------------------------------------------------------------------------------------------------------------------------------------------------

12.2. Persistence and degradability

Persistence and degradability	Readily biodegradable. The surfactant/surfactants contained in this preparation meet the criteria for biodegradation of Regulation (EC) no. 648/2004 on detergents.
-------------------------------	---------------------------------------------------------------------------------------------------------------------------------------------------------------------

12.3. Bioaccumulative potential

Bioaccumulative potential	The chemical is not expected to be bioaccumulative.
---------------------------	-----------------------------------------------------

12.4. Mobility in soil

Mobility	The product is water soluble and may spread in water systems. The product is non-volatile.
----------	--------------------------------------------------------------------------------------------

12.5. Results of PBT and vPvB assessment

PBT assessment results	The chemical contains no PBT-substances.
vPvB evaluation results	The chemical contains no vPvB substances.

12.6. Other adverse effects

Other adverse effects / Remarks	Prevent uncontrolled discharges to sewer, water and soil.
---------------------------------	-----------------------------------------------------------

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Specify the appropriate methods of disposal	Recover and reclaim or recycle, if practical. The waste code (EWC-Code) is intended as a guide. The user must select a code if the use differs from the one mentioned below. Empty and cleaned packaging may be recycled.
Product classified as hazardous waste	No
EWC waste code	EWC: 20 01 29 detergents containing dangerous substances EWC: 16 03 05 organic wastes containing dangerous substances

Other Information Do not empty into drains in a concentrated form.

SECTION 14: Transport information

14.1. UN number

Comments Not considered as dangerous goods under UN, IMO, ADR/RID or IATA/ICAO regulations.

14.2. UN proper shipping name

Comments Not relevant.

14.3. Transport hazard class(es)

Comments Not relevant.

14.4. Packing group

Comments Not relevant.

14.5. Environmental hazards

Comments Not relevant.

14.6. Special precautions for user

Special safety precautions for user Not relevant.

14.7. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code

Pollution category Not relevant.

SECTION 15: Regulatory information

15.1. Safety, health and environmental regulations/legislation specific for the substance or mixture

Detergents Content according to Regulation (EC) No 648/2004 on detergents:
15-<30% non-ionic surfactants.
<5% amphoteric surfactants.
perfume.

References (laws/regulations) Regulation (EC) No 1907/2006 on the registration, evaluation, authorization and restriction of chemicals (REACH Regulation), with later amendments.
Regulation (EC) No 1272/2008 on classification, labelling and packaging of substances and mixtures (CLP-regulation) with later amendments.
European Waste Catalogue and Hazardous Waste List
Regulation (EC) No 648/2004 of 31 March 2004 on detergents with later amendments.

15.2. Chemical safety assessment

Chemical safety assessment performed No

SECTION 16: Other information

List of relevant H-phrases (Section 2 and 3). H315 Causes skin irritation.
H319 Causes serious eye irritation.

Abbreviations and acronyms used EWC: European Waste Code (a code from the EU's common classification system for waste)
LD50: Lethal dose, is the amount of a substance given to a group of test animals, which causes the death of 50%.
PBT: Persistent, Bioaccumulative and Toxic
vPvB: very Persistent and very Bioaccumulative

Information which has been added, deleted or revised New Safety Data Sheet.
