

Leaf & Button Earrings

A Subtle Touch of Nature

DESIGN BY Tracy Gonzales (for TierraCast®)

- 1 Cut 10" piece of 24ga gun metal or bronze craft wire. Hold a button vertically. From the back thread the wire 4 inches through the bottom hole. Wrap this wire around the bottom of the button and back through the hole twice. Bring the wire to the bottom. Thread under adjacent wire for stability, then start a wrapped loop, adding a leaf before completing. Wrap generously. Trim excess.
- 2 From the back wrap the other end of the wire around the middle section of button (between the two holes) twice, then around upper section twice. Bring wire to top and thread under adjacent wire. Form a second wrapped loop.
- 3 Attach an earwire. Repeat for second earring.
