

flexible

fully flexible brush-head
allows for comfortable
brushing:

- less snagging
- less „ripping“
- easy to use
- extremely durable
- waterproof

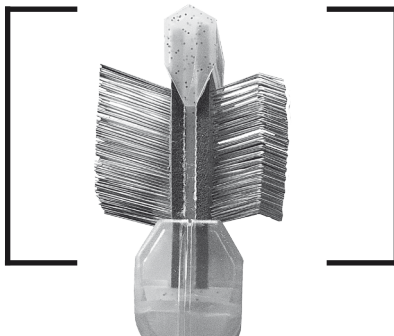

effective,
but gentle

- easier on the coat
- easier on the user
- may alleviate r.m.s.
(repetitive motion
syndrome)

2-in-1

straight, inclined bristles
for a smooth finish.

From the experts: The
straight bristles help
TRAIN animals which are
not fond of brushing yet!

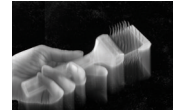

Diamond Daily Care Brush

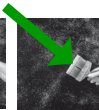

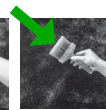

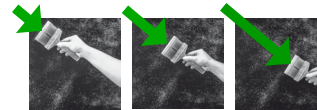

for best results

PRO-Brush shown here; these rules apply to
ALL ActiVet brushes!

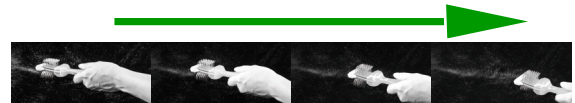

- 1 Brush with a „light hand“ -
do not push down while brushing

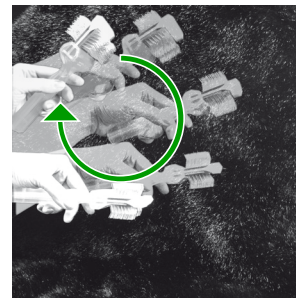

- 2 Operate in direction of handle only -
DO NOT USE BRUSH SIDEWAYS!!!

- 3 Use continuous, smooth strokes, keeping your
wrist STRAIGHT, do NOT apply traditional
„hacking“ motion

- ! On dense mats, brush in a „bicycle type“ motion
with a straight wrist - DO NOT apply conventional
„wrist-flicking“ hacking motion

Diamond Daily Care Brush

ActiVet®

Allround-Brush FIRM

SINGLE HEAD BRUSH: Dogs 5 lbs to 40 lbs with coarse & thick coats and/or heavy undercoat. A light, yet extremely powerful brush for brushing out and de-matting.

Allround-Brush SOFT

SINGLE HEAD BRUSH: Dogs 5 lbs to 40 lbs with dense, fluffy, silky coats with little or no undercoat, full coated small Terriers. Light and flexible, the brush-head is softer than the one on the FIRM brush.

Allround-Brush SUPER-SOFT

SINGLE HEAD BRUSH: Dogs 5 lbs to 40 lbs, silky and delicate coats, best brush for most breeds in show condition. Great for puppies and toy breeds; gently untangles critical areas.

ActiVet MEGA (9,0cm WIDE)

DOUBLE-HEAD BRUSHES: Dogs 40lbs.&up - For medium to large breeds, heavy undercoat and large, double-coated breeds all MEGA-Brushes are the ultimate time-savers.

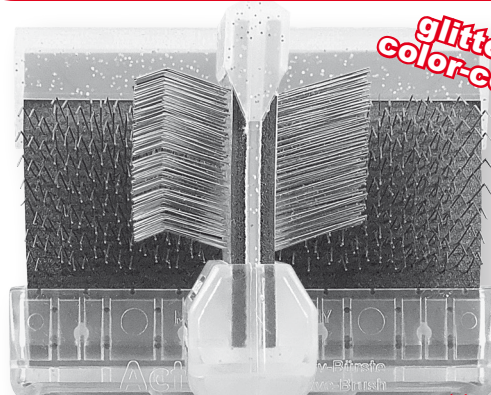

Activet Diamond-Daily-Care brushes are an excellent tool for daily coat care. The straight non-snagging bristles can be used to alleviate a possible fear of brushing in most animals by training them with these smooth bristles.
